

My Fantastic Day

A detailed LEGO Christmas scene built on a grey Technic baseplate. The scene features two green Christmas trees, one of which is being decorated with a black string of lights. A white cat figurine is in the center, and a black pot contains orange fish-shaped toys. Various green and orange LEGO pieces are scattered around, creating a festive winter atmosphere.

I saw a witch in a forest and she cooked lunch. Some soldiers arrested her. My friends and me went to the castle to save the witch.

We fought with the soldiers. The battle was very difficult. They were strong. We were in a danger. In the middle of the fight, something exploded. It was a bomb. **BOOM!**

**AND WE WOKE UP
and had breakfast!**
