(She did nothing)

In about 10 years time I will be living on the moon with a family of 30 cats and my wife.

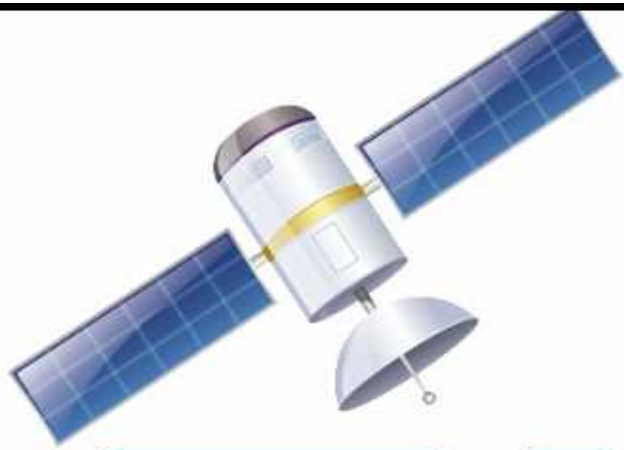

I love to eat carrots so I will probably smell a lot...

My wife will make me take a ton of showers one day I have a feeling I will slip on a soap and break my arm..

I will end up in a hospital with my wife next to my bed where alien doctors will try to heal me but I know there will be no hope for me. Hello future here I come....
