We wish we could have more free time. We would like to become professional programmers. If we could have more free time we would like to make our own game.

If only we made a game,... We would call it "Magical Moon". We would be main characters in that game

In that game we must attack an "Evil Castle", to save the Moon.

If only we were  
that strong to  
beat the  
enemies...

**We made it!!!**
