

Great  
Adventure  
by Despot

Group of astronauts  
landed on Mars. Five  
astronauts met two aliens.

One alien has antennas and big eyes. He is blue and six meters high.

This alien has orange eyes and a large antenna on his head.

They spent five days on the Mars and that was a great adventure.

They found very strange plants that did not grow on Earth and took them to the lab when they were on Earth.
