

# The robbery

Bob, who is an inhabitant of Amsterdam, is a professional criminal. Bob is intelligent, selfish, cruel, quick and mean person.

He has been planning  
■ to rob a big jewelry ■  
store for a long time.

He had just the perfect plan, he'd come in unnoticed, took the jewelry, went up to the workers in the backroom and went to the basement, where was the main reward. A big diamond. He took it and left through the vents

■

The moment came , everything went as planned. There was only one problem , police circled the front entrance. He went to the front entrance. He went to the street behind but it was a dead-end. He went to prison but the diamond was never found.

■

The page is decorated with a border of green polka dots along the top and bottom edges. In the center, there is a large, white speech bubble with a black outline. Inside the bubble, the names of three individuals are listed in a simple, black, sans-serif font, stacked vertically.
