Singapore

People live
in high-rise
buildings.

Many
Singaporeans
live in flats.

A LEGO building constructed from white and grey bricks. At the top, a grey brick is topped with a black brick. An orange rectangular sign is attached to the grey brick, featuring two Chinese characters in black ink: '鼠' (mouse) and '马' (horse). The building has a central window with a white frame, containing a white crescent moon and two white five-pointed stars. Below the window is a yellow door. A minifigure with brown hair, wearing a red shirt and yellow pants, stands on a green baseplate in front of the door. The baseplate is surrounded by green grass and small brown pots with pink flowers. A black cat is visible on the right side of the baseplate.

This is
Chinese
language.

This is
emblem of
Singapore.

I love
Singapore

Singaporeans favourite food is
noodles with meat and
vegetables. They don't eat with a
knife and fork, they use chopsticks.
