

WELCOME

TO MY DREAM

island

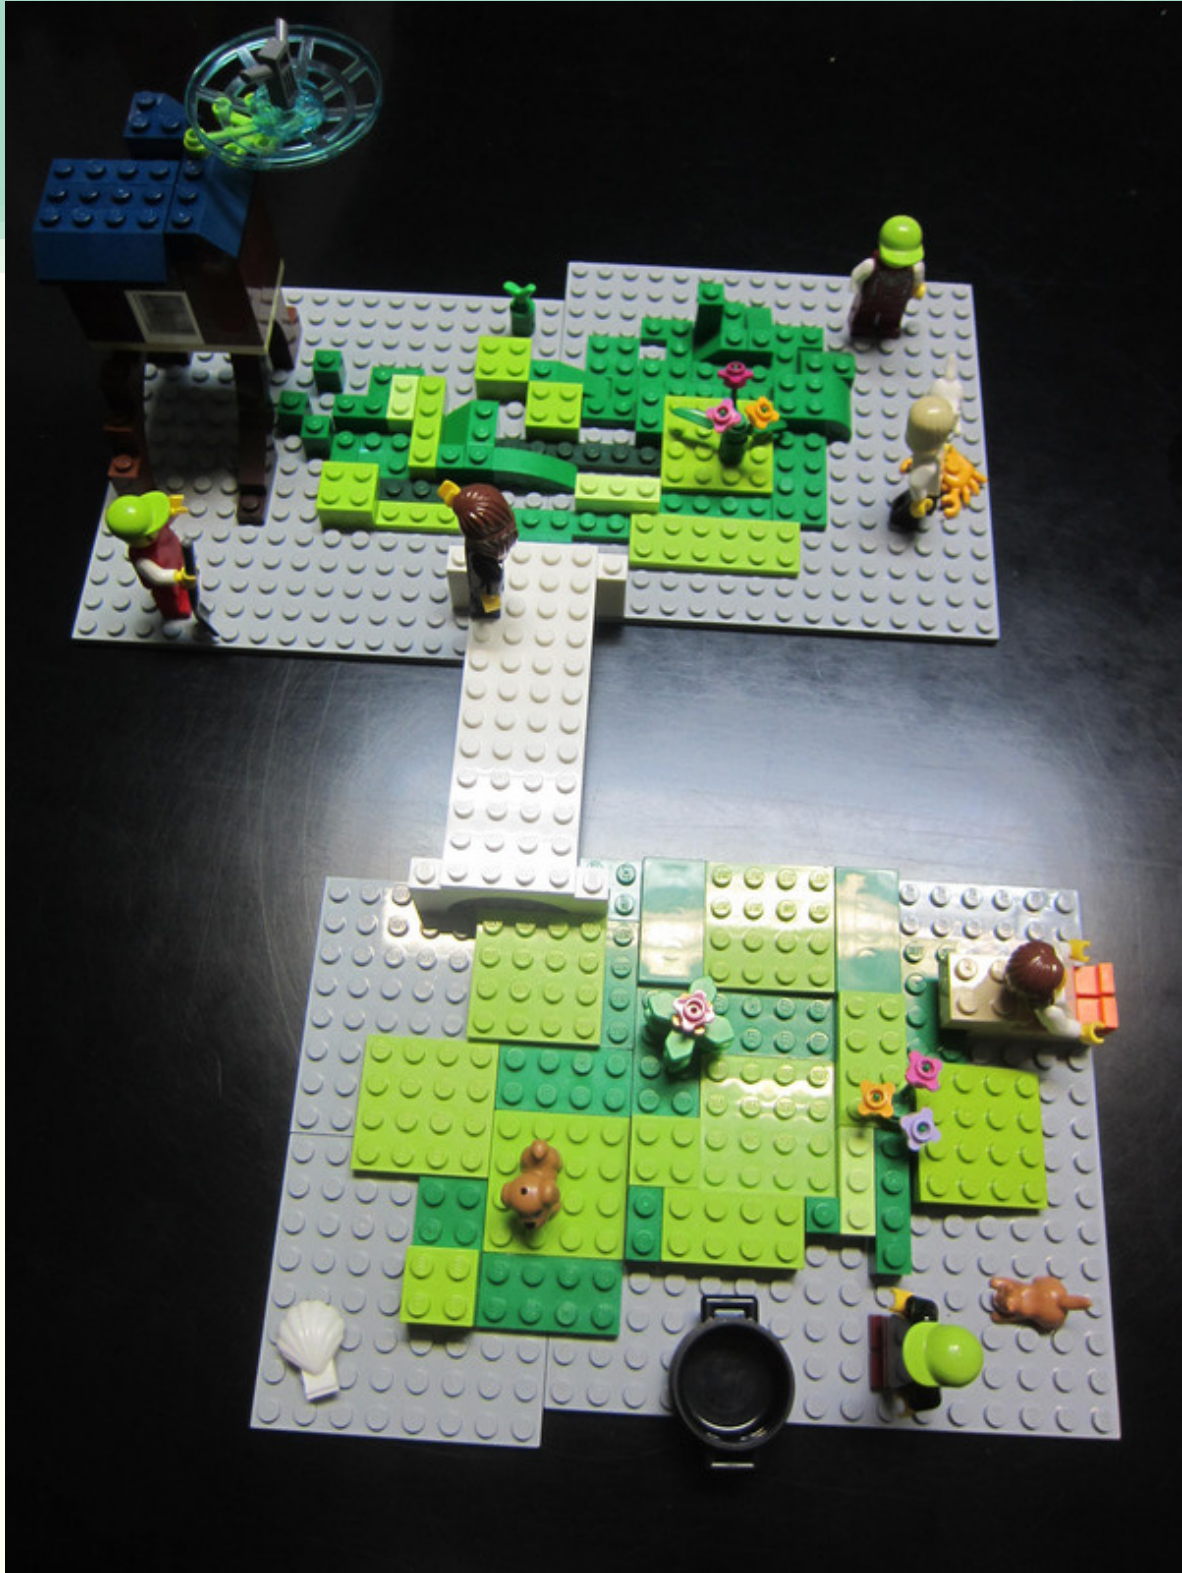

THIS IS MY ISLAND

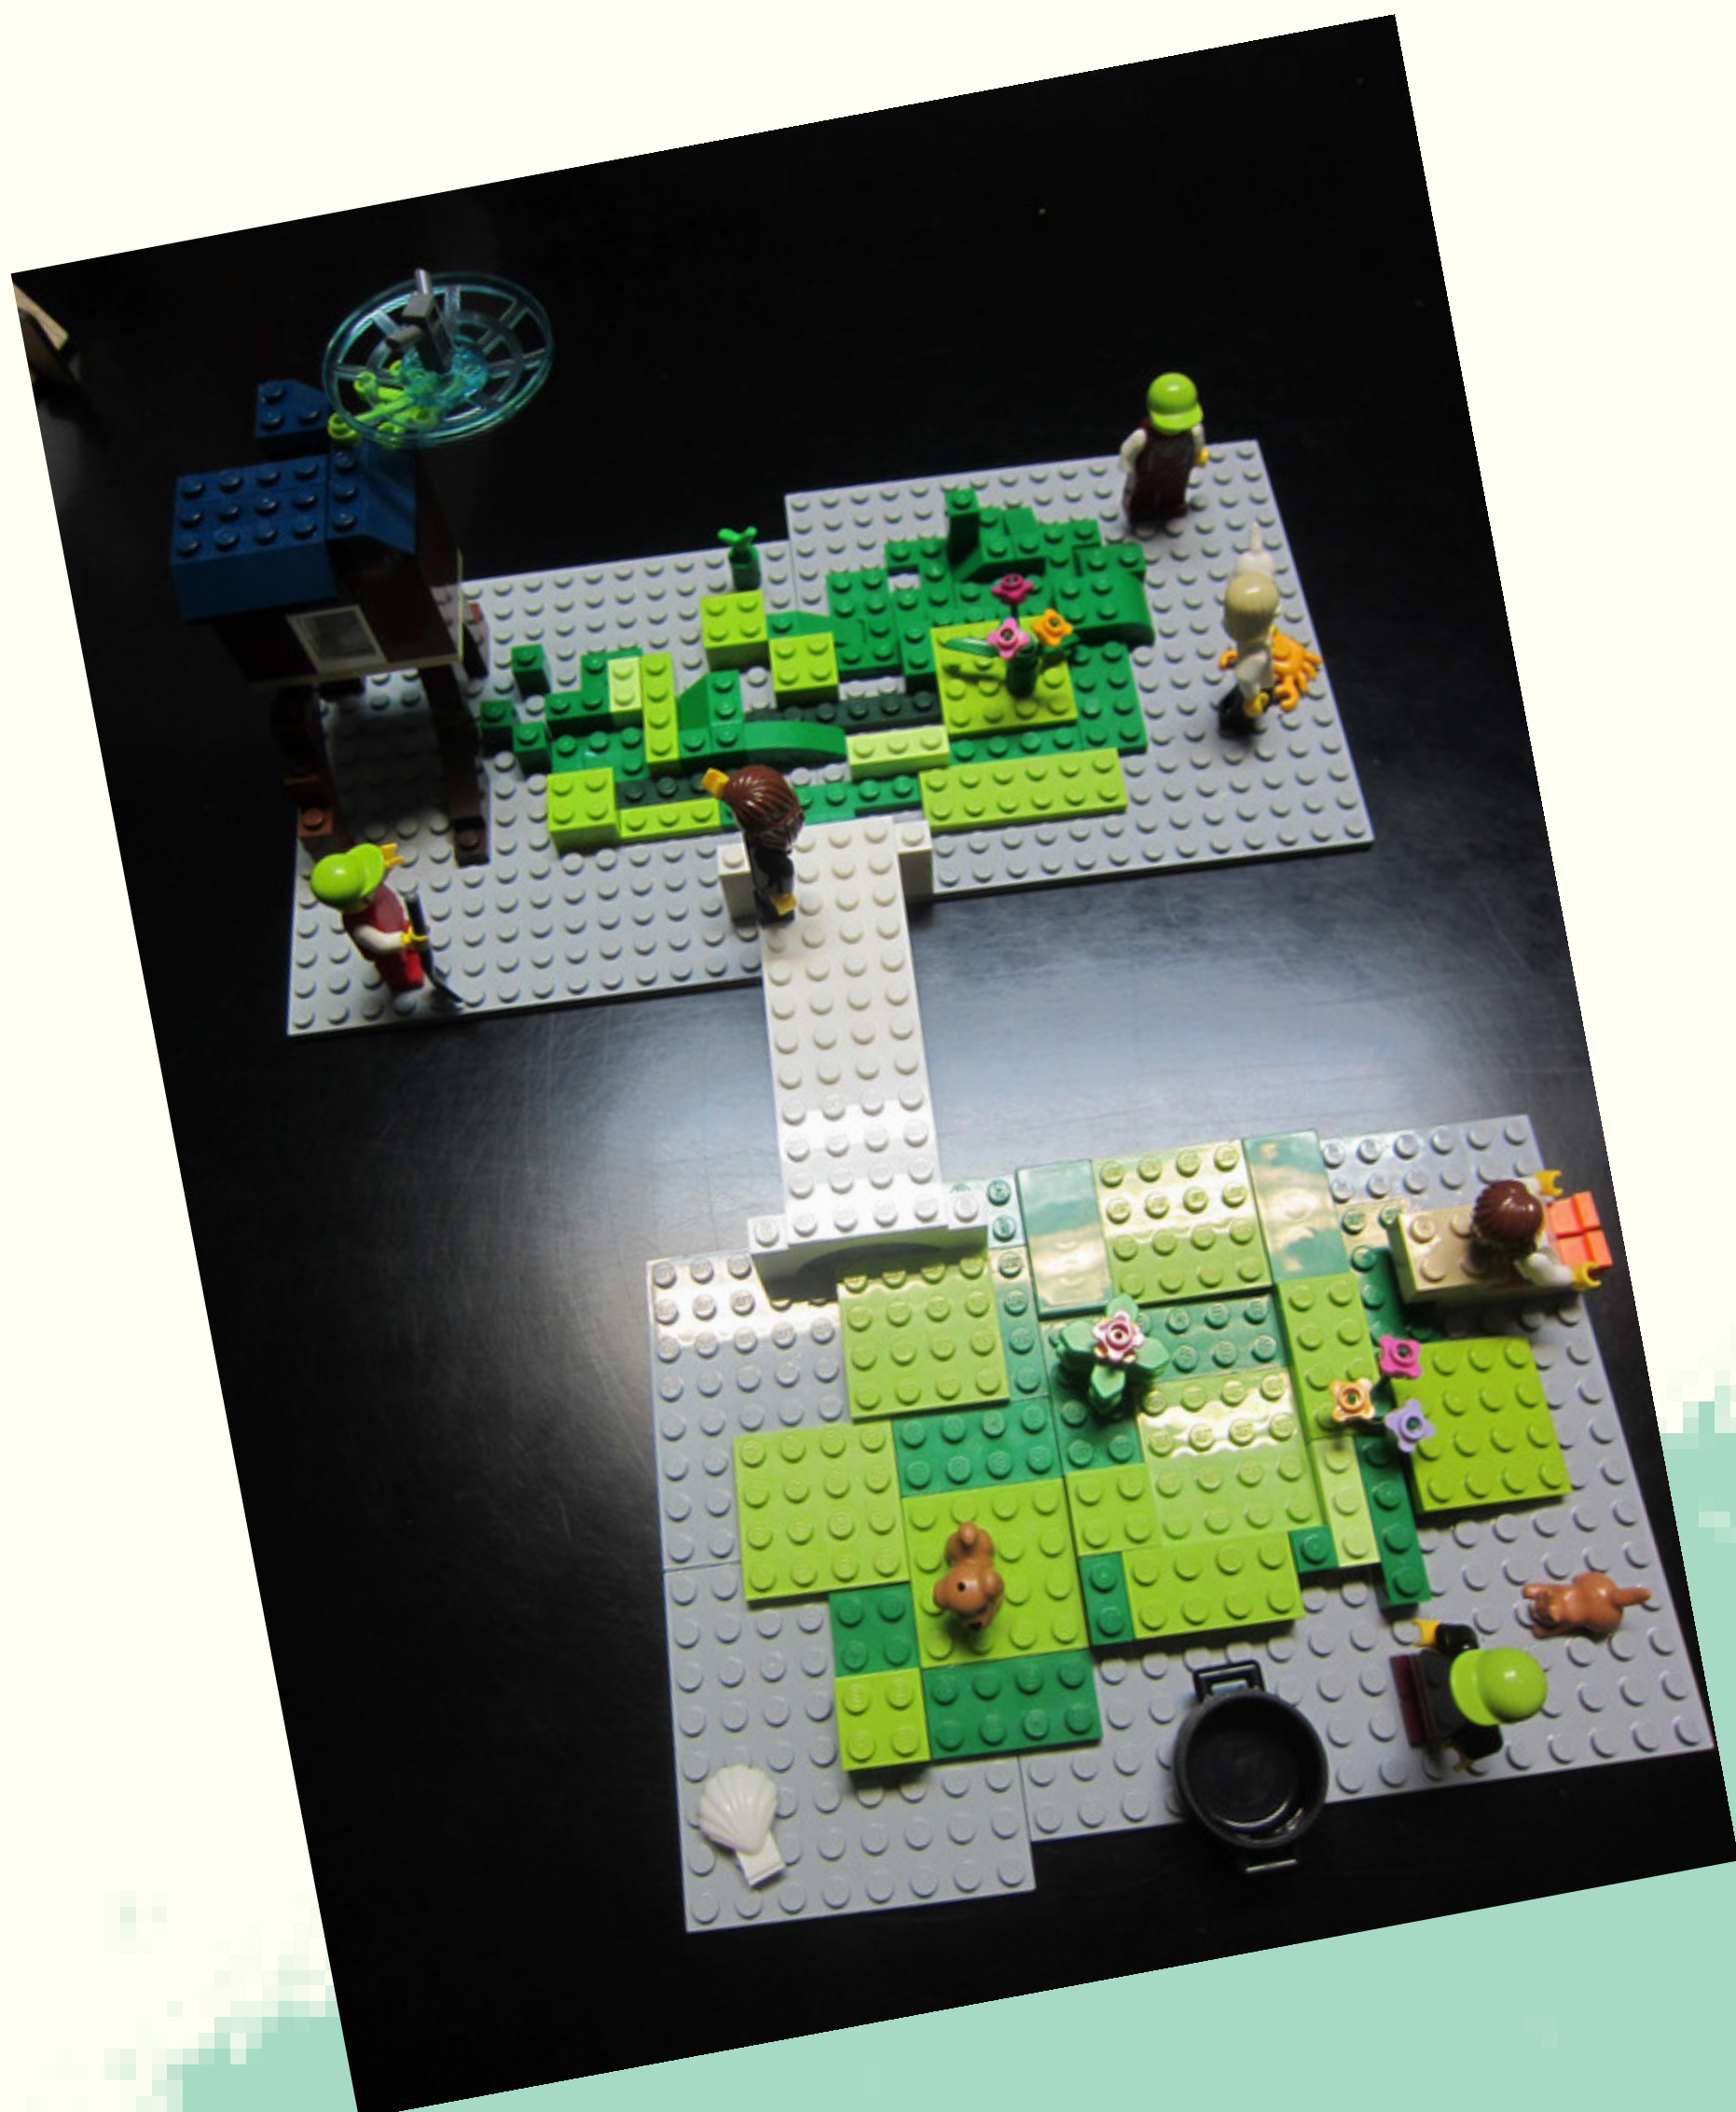

One big family will live on my island and they will have two cats and a dog. The island will also be separated in two parts and it will be connected by a bridge. The house will be on stilts because it will be close to sea.

People on the island will be fisherman and their main food will be fish and eatable plants. There will be lots of flowers.

you're invited!

I'm Milica, and I made this island. I think it's really pretty and that it will be real by someday. I invite you to the island so we can have lots of fun there. That's it for now from me. Byebye!
