

ADAM JONE'S JOURNEY

by
Vuk, Jakša
& Nikolaj

What
is this?

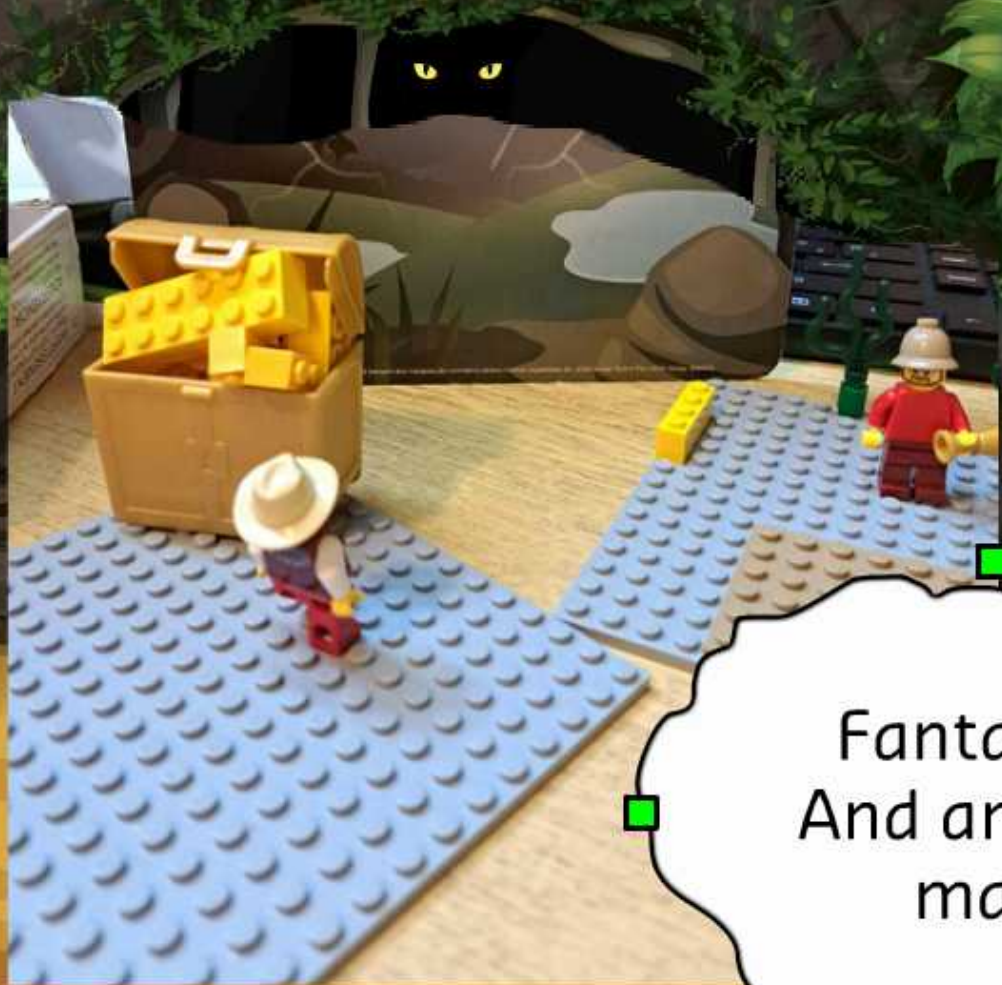

He sails
across the
lake to find
the treasure.

A LEGO Mummy-themed diorama is set on a desk. The scene is built on two grey LEGO Technic plates. The left plate is bordered with colorful Technic bricks (orange, yellow, blue, green, red, orange). It features several minifigures: a red one, a yellow one, a blue one, a white one with a grey hat, and a black one. A black keyboard is partially visible behind this plate. The right plate is bordered with blue Technic bricks and contains two white spider webs with black spiders and a minifigure with a brown head and an orange vest. The background is a dark, textured wall with green vines and plants. A white speech bubble with black text is centered over the scene. The foreground shows a wooden desk surface and a white box.

Mummies chase
Adam. At
last, he
escapes.

Fantastic!
And another
map!

the end
